

The Facilities Planning Services Group
Offers Proven State-of-the Art

CELLULAR / WEB BASED PRODUCTIVITY MONITORING SOLUTIONS

3.5 DECADES OF EXPERIENCE

FPS offers accurate Actionable Data collection solutions that are easy to install, easy to use, and application friendly, at a very low cost. Below are two client statements that are typical of that we frequently hear.

Production Engineering Manager states: **"We were considering a proposal from one of the large automation suppliers for a system that would help us with process improvement. FPS came in and installed their technology on one of our processes for evaluation. They blew away the larger competitor with superior capability at a fraction of the cost. Our return on investment was measure in weeks. . . I highly recommend it"**

Operations Manager states: **". . . we have had two record months in a row for profit, efficiency, and utilization. (includes quality and delivery) Nice not to be the black sheep of the organization any more. There is a lot we have done to do this, but its no coincidence that your technology was critical in helping us turn the corner. Killer tool. . . "**

With many proven solutions already installed and our 3.5 decades of operational experience; FPS is prepared to confidentially discuss your productivity challenges. Contact FPS for a free analysis.
