

CERBERUS - CTA Acoustics

Selected Facilities Planning Services LLC

To Implement Process Improvements

Mr. Tim Meador and Mr. Kevin Sears senior management at the Cerberus CTA Acoustics facility in Corbin Kentucky invited FPS to partner with them to solve their scrap issues. Reported scrap numbers did not seem accurate. The team discovered the true scrap numbers and devised a way to re-process and re-use the scrap. Under their leadership we installed the solution system and improved the bottom line by well over \$10,000,000 annually. This dramatic success at Cerberus CTA Acoustics has been repeated at Honda, Toyota, CMI, Volvo, Unilever, Con Agra, Duane-Read, Eaton, Corning, Palmetto State Armory, Schaeffler, Caterpillar, VTL Precision, AP Exhaust, Lowe's Millwork, and HUNDREDS of other satisfied clients worldwide since 1972. The FPS proprietary FORM scientific approach yields consistent success!

FPS LLC has well over 4 decades of experience in understanding and solving process flow challenges. We are consistently successful in supporting, developing, and implementing intelligent lean and flexible harmonious solutions from receiving through shipping. We have extensive experience in a vast range of manual to highly automated process flow and storage solutions. We would like to be a part of your future success. Lets schedule a Zoom to discuss your challenges.
