

MANUFACTURING VISIONARIES

Do not Fail, They Get The Job Done Despite Adversity

Featuring Mr. Tim Meador
Formally of CMI International
Formally of CTA Acoustics
Currently of Bliss Munitions

FPS has been the proud resource for Mr Tim Meador for many years across many projects in many areas of the world. Tim is a true Visionary with unusual foresight and imagination. He is innovative, persistent, organized, enthusiastic, focused on positive change, and intellectually rewarding to work with. We have had many huge successes such as Precision Mold that manufactured the critical Chrysler van frame component. We increased output that eliminated the need for a second facility. We saved many millions of dollars in three months work.

Working with our clients in the reorganizing of existing facilities and designing of new facilities across four decades, has allowed the FPS staff to consistently learn and grown to become better facility planners. Tim has become a life time friend. Life does not get any better.

If you are considering reorganizing your existing manufacturing and / or distribution operations or need a new facility, let's talk and share ideas.
