

# **EZ Approach to Remote Facilities Design**

**MANUFACTURING & DISTRIBUTION**

**Is COVID impacting your facility upgrades and expansion plans?**

**Facilities Planning Services LLC has an EZ approach to remote facilities design and layout in this COVID environment. It is called our “Email / Zoom” approach. It is exactly how we have handled hundreds of remote projects in Asia, Africa, and South America for over 4 decades. It is a well structured proven approach initially developed where the actual production labor may be hundreds of miles away from ownership; at times in completely different countries. Not only does it work but it gets excellent results quickly and at lower cost.**

**If you are interested in discussing how EZ may work for you, just give us a call or email at:**
